Dear Dave

WAVERLEY VIADUCT PEDESTRIAN WAY

I understand that prepared plans for the pedestrian way at Waverley Viaduct have incorporated wheelchair access and will also be accessible to less able walkers.

It would be of great advantage to both disabled children and adults from all over the city to have such a beautiful stretch of the river Eden open to them where they can enjoy the outside environment in safety increasing well-being and mental health.

Carlisle Mencap would welcome the opening of Waverley Viaduct as a pedestrian way.

Yours sincerely
Carlisle MENCAP
